

# Product End-of-Life Instructions

**Product Range:** Vigirex RH10P to 99P with MA120 toroid sensor

**Marketing Model/Name:** (List of multiple models if applicable)

**The End of Life Instruction (EOLI) covers the entire range:**

- Vigirex RH10P to RH99P earth leakage protection relays (built-in)
- Associated current sensors.

## **Purpose:**

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

## **Note :**

This product family is not in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

Size in mm

**H x L x D in mm :** 72 x 72 x 78

**Weight in kg :** 0.23 kg

## Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy :  
 Reuse → Depollution → Dismantling → Shredding.

**The components of the products that optimize the recycling performances are listed, identified and located hereunder.**

**This product contains a printed circuit board which is recommended to be treated separately during the End of Life operations.**

| Number on drawing                       | Components             | Weight (g)  | Comment      |
|---|------------------------|-------------|--------------|
| Components listed for special treatment |                        |             |              |
| 1                                       | Printed circuit boards | 79 to 167 g | Quantity = 3 |
